Welcome to SRSA's 56th Conference

The Participant Index located on pages 37-38 shows when and in what session you are scheduled. Verify the timing and location of your papers and sessions.

The following provides a guide to the etiquette for all sessions:

- Each paper presentation generally is allotted twenty minutes.
- Discussants should prepare five minutes of remarks, allowing five minutes for questions and comments from other attendees.
- Session chairs and presenters should arrive ten minutes early for audio/visual preparation.
- It is the responsibility of the session chair to ensure a compatible laptop will be available in the session.
- Session chairs should preserve the order of the session to facilitate attendees who may be attempting to hear papers in concurrent sessions.
- Presenters and discussants should remain for the entire session.

Public Policy Analysis: The BBER has a long history of research and analysis of public finance and public policy issues in West Virginia. Recent projects include studies on cigarette excise taxation, personal income tax policy, and Right to Work policy.

Industry Studies: BBER researchers routinely study particular industries for industry and government groups. Our “Coal Production in West Virginia: 2015-2035” has been cited around 100 times by state and national media outlets.

Legislative Testimony: BBER economists formally testify before the West Virginia Legislature on a regular basis. In 2014 a BBER economist testified before the U.S. House of Representatives, Subcommittee on Contracting and Workforce.

Health Policy: Health policy is of vital interest to our state. For instance, we recently examined the possibility of consolidating the state’s public health departments in terms of potential to lower system-wide expenditures and to generate additional revenue.

Energy Policy: West Virginia being an energy state, the BBER regularly studies energy policy issues. Recently we published “Government Incentives to Promote Demand for West Virginia Coal.”

Mission. Founded in 1961, the Council for Community and Economic Research (C2ER) is a membership organization that promotes excellence in community and economic research by working to improve data availability, enhance data quality, and foster learning about regional economic analytic methods. C2ER accomplishes this mission by:

- Conducting training, advocacy, and research
- Delivering innovative products and services for researchers
- Developing professional networks

Members. C2ER's 700 members span a broad range of specialty skills and collectively touch all aspects of state and local community and economic development in the U.S. They include research professionals from:

- Chambers of Commerce
- Economic Development Org.
- Government Agencies
- Universities
- Utility Companies
- Workforce Development Boards
- Community Development Org.
- Consultants & Data Providers

Products & Services. The Council for Community and Economic Research (C2ER) produces several proprietary products and provides a variety of services to members and non-members.

Cost of Living Index: The quarterly Cost of Living Index compares cost of living differences between urban areas weighted by different categories of consumer expenditures for mid-management households.

State Business Incentives Database: The State Business Incentives Database is a searchable database of incentive programs used by states for strategic business attraction. It includes more than 1,900 incentive programs organized according to program category, program type, geographic focus, and business need.

State Economic Development Expenditures Database: Collected by aggregating state budget data, the Expenditures Database assesses total resources available for economic development activity across more than 15 functional areas and multiple funding sources using consistent funding categorizations.

Training / Webinars: In cooperation with the LMI Institute, C2ER offers a comprehensive training program for economic development and labor market information analysts and develops and delivers customized training.

Certification: C2ER's primary professional certification, Certified Community Researcher (CCR), is the industry standard for recognizing excellence in community and economic research. CCRs undertake a rigorous course of training and evaluation to earn this distinction.

Weekly Update: The C2ER/LMI Institute Weekly Update is an informational "one-stop" for economic development and labor market researchers.

Annual Conference: The C2ER Annual Conference is the primary national conference for economic development, and is held in conjunction with the LMI Annual Forum.

Technical Assistance: C2ER aids federal and state agencies by conducting surveys, providing facilitation, and implementing one-on-one skill development in using statistics in data-driven decision-making.
